7.62.0 New Features

This guide lists new features available in **eTapestry** 7.62.0, released on January 31, 2021.

Deprecated: Create Custom Account Query from Find an Account

As of the 7.62.0 release on January 31, 2021, you will no longer be able to create a custom account query from **Accounts**, **Find an Account**. Previously, when you searched for accounts from **Find an Account**, you could create a custom account query to include specific accounts in your results. Due to lack of use, support for this feature is no longer available.

Deprecated: Link an eTapestry Account to Blackbaud ID

As of the 7.62.0 release on January 31, 2021, you will no longer be able to link your legacy **eTapestry** accounts to your Blackbaud ID. To access **eTapestry**, an admin will now need to send users an invite to sign in with their Blackbaud ID or invite the user from the All Users report. For more information, see [Blackbaud ID](#).
