Upgrade Overview

Host*Net clients will be upgraded to 14.65 on November 3rd, 2018.

On Premise clients on a version greater than 12.50 can update to 14.65 by downloading the installation package from Blackbaud Downloads (<https://www.blackbaud.com/support/downloads/downloads.aspx>), and following the installation instructions in the **FIMS 14.65 Upgrade Guide**.

IMPORTANT for On Premise customers: FIMS versions 14.64 and 14.65 contain a required security certificate update for **DonorCentral v2 or v4 with Progress 11**.

On Premise customers who use DonorCentral v2 or v4 with Progress 11 but have not installed version 14.64 must install either 14.64 or 14.65 **by November 4th, 2018** to get the required certificate.

On Premise customers already at version 14.64 do not have an urgency to install version 14.65 to maintain connection between DonorCentral v2 or v4 with Progress 11.

Resolved Issues

The following issues are resolved in this release. Case numbers are provided for internal referencing.

ID	Module	Description
1002400	Suggestion Import	The FIMS Suggestion Import tools no longer fails silently on problem fields because of updates to handle responses to processing custom and unique field entries.
1065648	Grant Imports	Now after grants are submitted in DonorCentral NXT, suggestions display in FIMS > Tools > System Utilities > DonorCentral > Receive Suggestions from DonorCentral .
1066672	Reports	When loading a saved User Defined Gift History Export report, the following error no longer occurs: "No tt-browse record is available 91 when Loading a Saved Report"
1067540	Interfund	Gift and Grant numbers are no longer reversed after interfund linking of a gift and a grant.
1071552	On Premise Uploads to DonorCentral v4	FIMS 14.64 On Premise customers who use Progress 11 and upload Fund Statements to DonorCentral v4 will no longer encounter the error, "Could not evaluate the expression describing the context of external function 'uploadstatement'.(2767)"
