

MicroEdge Internet Grant Application Manager[®] 6.2

SYSTEM REQUIREMENTS

R03232016

This document details the software requirements and other technical considerations which must be met to use the Internet Grants Application Manager (IGAM) with the latest versions of GIFTS, GIFTS Alta, and GIFTS Online by applicants and grantmakers.

Minimum Hardware and Software Requirements

These are the requirements for Applicants and Grantmakers:

Applicant Requirements

Applicants must have access to the Internet and a Web browser that allows cookies.

Browser Requirements for Grantmaker and Applicant

The following browsers have been certified compatible with IGAM 6:

- Internet Explorer[®] 11
- Internet Explorer[®] 10
- Microsoft Edge
- Mozilla[®] Firefox[®] (for PC and Mac)
- Safari[®] (for PC and Mac)
- Google Chrome

NOTES:

- Browsers are tested and certified using default settings.
- All browsers should have the latest updates available installed.

Grantmaker Requirements

- **An Internet connection:** The workstation where you will be using IGAM to publish forms and retrieve applications and requirements must have an Internet connection. The connection should allow HTTP traffic over port 80 or HTTPS over port 443.
- **Display screen resolution:** minimum of 1280 x 720 pixels.
- **Running the Installation:** IGAM is installed automatically with the installation of GIFTS or GIFTS Alta. The installation must be run from an existing GIFTS or GIFTS Alta + IGAM workstation WITH access to the IGAM servers.
- **GIFTS Online users:** Any upgrade for GIFTS Online will always include an upgrade for Online Applications if available.
- **GIFTS Online Users:** Microsoft Silverlight is required to access GIFTS Online.

MicroEdge Internet Grant Application Manager[®] 6.2

SYSTEM REQUIREMENTS

R03232016

- **Upgrade to GIFTS 6.7** requires GIFTS 6.4 or later. Please contact Technical Support if you have an earlier version of GIFTS.
- **Upgrade to GIFTS 6.7** may also require manual uninstall/reinstall of add-on features such as GIFTS Connections Server, Links Plus, Reminders Plus, Report Manager, and Job Manager if they were previously installed. Please refer to the GIFTS 6.7 Upgrade Guide for more details.
- **Upgrade to GIFTS Alta 1.8** requires GIFTS 6.4 or GIFTS Alta 1.1 or later. Please contact Technical Support if you have an earlier version of GIFTS.
- **Upgrade to GIFTS Alta 1.8** may also require manual uninstall/reinstall of add-on features such as GIFTS Connections Server, GIFTS Alta Link, GIFTS Alta Reminders, Report Manager, and Job Manager if they were previously installed. Please refer to the GIFTS Alta Upgrade Guide for more details.
- **GIFTS and GIFTS Alta users:** Upgrade to IGAM 6.2 requires IGAM 5 or later to already be installed.
- Current MyGIFTS/ReviewerCONNECT users must have version 3.6 or higher to be compatible with GIFTS 6.7 or GIFTS Alta 1.8 and IGAM 6.2.

Optional Installation Requirements

- If you want to take advantage of IGAM's correspondence features to generate printed correspondence or email messages to applicants, you must have Microsoft[®] Word for Office 2010, 2013 or 2016 Professional.
NOTE: Please install the latest Service Pack for your version of MS Office in order to assure compatibility.
- If you wish to accept file attachments with your GIFTS applications or requirements, you must have the GIFTS Document Manager installed. You will also need to have adequate file storage available to store the attachments.
- If you wish to include custom fields on your GIFTS, GIFTS Alta, or GIFTS Online forms, you must have the GIFTS Customizer or the GIFTS Blueprint Module included in your configuration.
