

The following pages list the minimum system requirements Blackbaud suggests for each of the **Blackbaud Online Admissions 6.64** components. For a more in-depth technical configuration of **Blackbaud NetCommunity**, read the *Blackbaud NetCommunity Configuration Overview* under **Support, How-to Documentation** on our website. Please contact your Blackbaud account manager if you do not have access to this information.

Unless otherwise noted below, all **Blackbaud NetCommunity 6.64** and **Blackbaud Online Campus Community 6.64** system requirements apply to **Blackbaud Online Admissions 6.64**.

**Note:** System requirements are subject to change. Before you make any purchase or installation decisions, ensure you have the latest system requirements and check for third-party compatibility information in Knowledgebase. If you use multiple Blackbaud products, refer to the system requirements for each product; the total requirements may be different from what is listed below.

## Blackbaud Online Admissions

Blackbaud NetCommunity database server	
general	<p>If you install the <b>Blackbaud NetCommunity</b> database on a separate database server, please refer to the <b>Blackbaud NetCommunity 6.64</b> system requirements for the database server.</p> <p>If you install the <b>Blackbaud NetCommunity</b> database on the same database server as <b>The Raiser's Edge</b>, <b>The Education Edge</b>, or <b>Blackbaud Student Information System</b>, please review the system requirements for each product and review your configuration with a Blackbaud representative.</p>

Blackbaud NetCommunity web server & Core Components	
disk space	1.5 GB minimum for <b>Blackbaud NetCommunity</b> program, system, core components, and database management console files; plus 50 MB for the workstation deployment files, which can be installed in a different location. Additional space is required for the database.

## Blackbaud Software Compatibility

Blackbaud software requirements	
Blackbaud Online Campus Community™	<p><b>Blackbaud Online Admissions 6.64</b> is compatible with <b>Blackbaud Online Campus Community 6.64</b> or higher. Please refer to the <b>Blackbaud Online Campus Community 6.64</b> system requirements.</p> <p><b>Blackbaud Online Admissions 6.64</b> is not compatible with the SQL Server 2005 Express versions of <b>The Education Edge</b>.</p>
The Education Edge™	<p><b>Blackbaud Online Admissions 6.64</b> is compatible with <b>The Education Edge 7.84</b> with <b>Admissions Office</b> installed. Please refer to <b>The Education Edge</b> system requirements.</p> <p>Limited testing conducted with <b>The Education Edge 7.82</b>, and any issues encountered with <b>The Education Edge 7.82</b> will require upgrading to <b>The Education Edge 7.84</b>.</p> <p><b>Registrar's Office</b> is optional unless you want to use the Online Reenrollment form type or include residence life fields such as roommate requests and residence hall requests.</p> <p>Neither <b>NetClassroom</b> nor <b>Faculty Access for the Web</b> are required to support <b>Blackbaud Online Admissions 6.64</b> or the Online Reenrollment form type.</p> <p><b>Blackbaud Online Admissions 6.64</b> is not compatible with the SQL Server 2005 Express versions of <b>The Education Edge</b>.</p>

<p>Blackbaud Student Information System™</p>	<p><b>Blackbaud Online Admissions 6.64</b> is compatible with <b>Blackbaud Student Information System 7.84</b> with <b>Admissions Office</b> installed. Please refer to the <b>Blackbaud Student Information System</b> system requirements.</p> <p>Limited testing conducted with <b>Blackbaud Student Information System 7.82</b>, and any issues encountered with <b>Blackbaud Student Information System 7.82</b> will require upgrading to <b>Blackbaud Student Information System 7.84</b>.</p> <p><b>Registrar's Office</b> is optional unless you want to include residence life fields such as Roommate Requests and Residence Hall requests.</p> <p>Neither <b>Student Portal</b> nor <b>Faculty Portal</b> are required to support <b>Blackbaud Online Admissions 6.64</b>.</p> <p><b>Blackbaud Online Admissions 6.64</b> is not compatible with the SQL Server 2005 Express versions of <b>Blackbaud Student Information System</b>.</p>
<p>Blackbaud NetCommunity™</p>	<p><b>Blackbaud Online Admissions 6.64</b> is compatible with <b>Blackbaud NetCommunity 6.64</b> or higher. <b>Blackbaud Online Admissions</b> does not support the U.K. version of <b>Blackbaud NetCommunity</b>. Please review the <b>Blackbaud NetCommunity 6.64</b> system requirements.</p>
<p>The Raiser's Edge™</p>	<p><b>Blackbaud Online Admissions 6.64</b> requires <b>The Raiser's Edge 7.92</b>. Please refer to the <b>Blackbaud NetCommunity</b> system requirements for <b>The Raiser's Edge</b> module requirements.</p> <p>Limited testing conducted with <b>The Raiser's Edge 7.91</b>, and any issues encountered with <b>The Raiser's Edge 7.91</b> will require upgrading to <b>The Raiser's Edge 7.92</b>.</p>

## Requirements Disclaimer

System requirements are based on information available on the last updated date. They are published only as a guide and relate solely to Blackbaud software.

Performance and response time are affected by many factors related to hardware (such as RAM, processor speed, and hard disk subsystem performance), network configuration (such as NIC performance, cable type, topology, operating system, parameters, and traffic), and the database (such as size, number of concurrent users, and the type of activities each user performs). In addition, network and workstation operating systems, third-party software products, and our own products are continuously updated with new features and options, which often place greater demands on hardware.

Blackbaud recommends the purchase of top-of-the-line equipment when possible and that organizations budget for continual upgrades to their system.

Blackbaud staff may provide limited informal guidance based on information made available. However, neither these system requirements nor our staff's guidance constitute a guarantee of compatibility, outcome, or performance. We encourage organizations to consult their own systems staff or outside technical experts to ensure appropriate results. Comprehensive technical consulting services are available through Blackbaud. Under a separate consulting arrangement, our consultants evaluate the installation of all Blackbaud applications and recommend optimal hardware and system configuration options. For more information, email [solutions@blackbaud.com](mailto:solutions@blackbaud.com).
